

Direct Cremation

We ask for full payment prior to the date of the funeral for this service.

This service is designed for people who would prefer not to hold a traditional funeral at all, perhaps choosing instead to hold a memorial event at a later date. We can help you to arrange this if you would like us to. We will provide a cheap, no-fuss cremation only service that does not compromise on our usual high standards of care and respect. You will often see this type of service referred to as '**direct cremation**'.

The cost includes an eco-friendly bamboo and hemp coffin made locally; collection from a local hospital; daily care and transportation of the person who has died from our premises to either Wear Valley or Darlington Crematorium. The person who has died will always be cared for in our premises by our staff and the cremation will take place locally. We will tell you the date and time of the cremation if you would like us to, and we will never use a third-party company to carry out the cremation.

Unlike many companies that offer direct cremation, we believe that it is very important that families are able to visit our chapel if they wish to, and so the price of this service also includes visits to the chapel by arrangement as often as you wish within working hours (9am-6pm). You may also bring us clothes to dress the person in if you would like to.

We may charge for travel outside the Darlington area. The amount will be agreed in advance with the family depending on distance.

There will be an additional charge if the cremated remains need to be delivered to an address in the UK by courier. This will be calculated on a case-by-case basis.

In the event that a larger coffin is required or that additional bearers are required, we reserve the right to make a surcharge of £100 for the coffin and/or £60 for each additional bearer.

Please be clear that this service is for cremation at a time of our choosing with no service and no family present.
